COMMISSION SUES

that prohibits campaign managers and others from soliciting contributions from Government employes in the civil service in Government buildings is being tested in a case now on trial in the Federal court of the Northern district of Texas. The prosecution is being urged by the Department of Justice, which has acted at the instance of the Civil Service Commission.

The direct question involved is whether the civil service law permits campaign committees to send letters to employes, mailing them to their addresses in Gov-

mailing them to their addresses in Gov-ernment buildings, solicitating campaign

Department of Justice officials and officials of the Civil Service Commission believe that if the courts rule that letters soliciting campaign funds can be sent into Government buildings, there will be practically no obstacle in the way of campaign committees and managers to prevent them flooding Government employes with solicitations for money to help run campaigns. So important is the question involved that the Government is prepared to carry the controversy to the Supreme Court of the United States if necessary.

In the case that is being tried, Edward S. Thayer, chairman of a campaign committee in the Sixth senatorial district of Texas, sent letters to postoffice employes at Dallas asking for funds and addressed the letters to the building in which they worked.

HARRIS IS AFTER

NEW YORK, June 7 .- It is likely that Harry Harris and Tommy Murphy will fight again before many weeks. Yesterday Johnny Oliver, manager of Murphy, accepted Harris' challenge, and at the same time Harris offered to wager any-thing up to \$5,000 on himself, and is willing to travel any distance, Murphy says. But it must be clean breaks, was the one stipulation Harris made.

In accepting the challenge Oliver said he would agree to fight twenty rounds or to a finish, that five-ounce gloves should be used, and that straight rules would have to govern the contest. Oliver says he would under no circumices let Murphy fight with clean

To show that he means business, Murphy's manager posted \$500. The money is to go as part of the side bet.

tried out with the youngsters for four miles practice on the upper half of the course.

Hyde was shifted from No. 4 to No. 6, with Waliace at No. 4. The freshman crew is as yet in a very unsettled condition, and the ragged work is causing the coaches considerable worry.

Mayer was rowing again at No. 2 in the varsity eight oar in the morning and evening practice.

Kennedy is confining his instruction mainly to blade work and trying hard to correct individual faults of the men. None of the crews have been sent more than two miles below quarters since arriving here, short stretches only being taken, relieved by rows in fours.

Harvard will have to send a good crew to the Thames this year if she wishes to again wrest the rowing honors from Yale. This is the opinion that prevails among the villagers and onlookers at Gales Ferry, who have watched the work of the Eli oarsmen for the last two days.

Harvard's launch, John Harvard, arrived from Beston this morning, coming by rail. The engineer, Freeman Moshier, had a close call from asphyxiation while accompanying the launch, He sought shelter from the rainstorm by climbirg under the canvas covering into the cockpit. The gas from live coals which remained under the boiler vas inhaled by the engineer and he was found to be in a comatose state upon arrival here, but recovered later. Moshier accompanied the Crimson crew to England last fall by special invitation.

TO DEVELOP RUSSIAN COPPER. According to advices from St. Petersburg to the London Times, a syndicate has been formed there for the exploitation of the rich copper mines in Russian Turkestan. The syndicate has acquired rights over 15,000 acres of territory. The district is said to comprise the finest copper-producing area in the whole of the Russian empire. The company will shortly be formed with an initial share capital of 1,500,000 rubles (\$750,000).

IN YALE CREWS The Palais Royal

Once a Palais Royal patron always one! Why? Because the patron learns that he or she may implicitly rely upon this stee. Just now long silk gloves are scarce and dear. Some merchants proudly boast of having a supply, and then coolly charge you an exorbitant price for the privilege of dealing with them.

The Palais Royal prices are very different-which old patrons expect and new patrons are learning of.

\$1.22 and \$2.12

Only \$1.12 for the 16-button length black Gloves from France. Only \$1.22 for the long white and cream silk Gloves, imported. Only \$2.12 for the best long Milanese Silk Gloves, white and black. *

End-of-the Week Sale

In Millinery Parlors

The sparklingly fresh and newly beautiful appearance of all the Trimmed Hats here is one of the reasons why the Palais Royal Millinery is so popular. It's no accident-every Saturday all hats that have been here since the preceding Saturday are offered at greatly reduced prices, so that it is a very rare occurence for a trimmed hat to be here for more than one week. Note tomorrow's program:

\$ 6 Hats \$ 8 Hats \$6.98 \$10 Hats \$8.48 \$12 Hats \$9.98

Nearly a half hundred of these hats to select from. Good, better, and best-can't you be an early visitor and pick out the best?

Danderine GREW MISS CARROLL'S HAIR

AND WE CAN

PROVE IT

Beautiful Hair At Small Cost.

WITHIN the last decade great and rapid strides have been made in Materia Medica. Many diseases that were considered incurable fifteen years ago are now cured in a few days, and in many cases prevented altogether. The scientists of late years have been delving for the cause, the foundation, the reason and the starting point of disease, fully realizing except that she is going to live abroad and did not care to take all of her dogs that the actual and true cause must be ascertained before the remedy can be located. Hair troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp, and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful-the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you

are to expect it to grow and become more beautiful, Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment, and when baldness occurs the scalp has simply lost all of its nourishment, leaving nothing for the hair to feed upon (a plant or even

a tree would die under similar conditions). The natural and logical thing to do in either case is, feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended

Dr. Knowlton's DANDERINE

is the only remedy for the hair ever discovered that is identical with the natural hair foods or liquids of the scalp. It feeds and nourishes the hair and does all the work originally carried on by the natural nutrients or life-giving juices generated by the scalp itself. It penetrates the pores of the scalp quickly and the hair soon shows the effects of its wonderfully exhilarating and life-

One twenty-five-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy-try it and see for yourself. Now on sale at every drug and toilet store in the land. Three sizes, 25c, 50c and \$1.00.
